Website Mockup / Creative Brief

Project Title

Local Business Growth Authority Website

Purpose of This Document

This document is the full website mockup and strategic brief for the new business website. It should help the web developer understand the positioning, messaging, structure, design direction, user flow, and required sections/pages.

This website should **not** feel like a cheap freelancer website or a generic agency website.

It should position the brand as a **premium local growth partner** for businesses in the GTA, especially:

- Service-based businesses
- Real estate agents
- Restaurants / food businesses

The goal is to attract business owners who care about **revenue, leads, booked jobs, authority, and long-term growth** — not people shopping only for the cheapest service.

---

1. Core Positioning

What the website should communicate

This business does not just offer random marketing services.

It builds **customer acquisition and growth systems** for local businesses using:

- High-converting websites
- Authority-building video content
- Review/reputation systems
- Paid advertisements

Core identity

The brand should feel like:

- Local market expert
- Revenue-focused strategist
- Premium but practical
- Someone who understands business, not just design

Avoid this impression

Do **not** make it look like:

- Cheap freelancer website
- Generic digital agency template
- Overly corporate and cold
- Cluttered “we do everything” service list

Desired impression

When a visitor lands on the site, they should think:

- “This person understands how local businesses grow.”
- “This is not just a web designer or video editor.”
- “This looks premium and trustworthy.”
- “I should book a call.”

---

2. Primary Goal of the Website

Main conversion goal

Get qualified leads to:

- Book a strategy call
- Submit a lead form
- Start a conversation

Secondary goals

- Build authority
- Filter out low-budget and low-fit clients
- Show niche relevance
- Showcase proof and quality of work
- Increase trust before the sales call

---

3. Target Audience

Primary audience

1. Service-based businesses

Examples:

- Electricians
- Painters
- Construction companies
- Contractors
- Roofers
- HVAC
- Plumbers
- Landscaping businesses
- Home service companies

2. Real estate agents

Examples:

- Individual agents
- Small teams
- Listing-focused agents
- Agents wanting better personal branding and property marketing

3. Restaurants / food businesses

Examples:

- Restaurants
- Cafes
- Dessert shops

- Takeout brands
- Small food chains

Ideal client psychology

These people are not just buying a service.
They want:

- More leads
- More customers
- Better brand perception
- Better online authority
- Real business growth

They are willing to pay for quality if they believe the system works.

---

4. Brand Direction

Style direction

The website should feel:

- Premium
- Clean
- Modern
- Confident
- Strategic
- Local-business focused

Visual tone

- High-end but not flashy
- Strong typography
- Sharp layout
- Clean spacing
- Cinematic visuals where relevant
- Professional and conversion-focused

Design references in feeling

Think:

- Premium service brand
- Modern consultant/operator website
- Growth-focused local business authority brand

Avoid

- Too many colors
- Cartoonish design
- Cheap-looking icons everywhere
- Template-looking sections
- Overuse of gradients just for decoration
- Generic stock-agency look

---

5. Site Architecture / Pages Needed

Main pages:

1. Home
2. About
3. Services / Growth Systems
4. Industries / Who We Help
5. Case Studies / Results
6. Portfolio / Work
7. Contact / Book a Strategy Call

Optional future pages:
8. Individual industry landing pages
9. Blog / Insights
10. Reviews / Testimonials page

---

6. Homepage Mockup

Homepage goal

The homepage should quickly position the brand, explain the system, build trust, and push visitors to book a call.

Section-by-section structure

Section 1: Hero Section

Purpose: Immediate positioning and authority.

Layout

- Split layout or clean single-column premium hero
- Strong headline on left / visual on right
- CTA buttons clearly visible above the fold

Suggested headline ideas

Option A:
We Help Local Businesses Get More Leads, More Customers, and More Revenue

Option B:
Growth Systems for Service Businesses, Real Estate Agents, and Restaurants in the GTA

Option C:
Turn Your Online Presence Into a Customer Acquisition System

Suggested subheadline

We build high-converting websites, authority-driven content, review systems, and paid advertising strategies that help local businesses grow with intention.

CTA buttons

Primary CTA:

- Book a Strategy Call

Secondary CTA:

- View Our Work

Hero visual ideas

- Premium montage of website mockups, local business visuals, video production scenes, and business branding
- Should feel real and local, not random stock imagery

Small trust line below CTA

Possible examples:

- Built for businesses that want growth, not just marketing deliverables
- Serving local businesses across Hamilton and the GTA

Section 2: Problem / Pain Points Section

Purpose: Make visitors feel understood.

Suggested heading

Most Local Businesses Don't Have a Marketing Problem — They Have a System Problem

Supporting points

The site should call out common issues like:

- Website looks okay but does not convert
- No consistent content or authority online
- Weak reviews / no reputation system
- Ads are wasted because there is no proper funnel
- Too dependent on referrals
- Inconsistent lead flow

Layout idea

3–4 clean cards or a two-column pain-point section

Section 3: The Growth System / Core Offer Section

Purpose: Show that this is a complete system, not isolated services.

Suggested heading

A Complete Local Growth System

Intro copy

Instead of selling separate services, the brand builds all the key pieces needed to help a business attract attention, build trust, and convert more customers.

4-part system blocks

1. **High-Converting Website**
    - Built to turn visitors into leads
    - Clear messaging, structure, and CTA flow
2. **Authority Content**
    - Video and creative content that builds trust and credibility
    - Helps businesses stand out in their local market
3. **Review & Reputation System**
    - More positive reviews
    - Better social proof
    - Stronger local trust signals
4. **Paid Ads & Growth Campaigns**
    - Drive qualified traffic
    - Support lead generation and revenue growth

Layout idea

Four premium cards in a row or grid with clean icons or minimal visual treatment

---

Section 4: Industries / Who We Help

Purpose: Show niche focus while keeping brand unified.

Suggested heading

Built for Local Businesses That Want Real Growth

Industry blocks

1. Service Businesses

Examples: electricians, painters, contractors, roofers, home services

Messaging direction:

- Get more booked jobs
- Build trust in your area
- Turn your website and content into a lead source

2. Real Estate Agents

Messaging direction:

- Stronger authority

- Better listing presentation
- Stronger brand presence that helps win more business

3. Restaurants / Food Businesses

Messaging direction:

- Better brand visibility
- More attention online
- Stronger customer pull through content, offers, and local presence

CTA under section

- Explore How We Help

Section 5: Proof / Results Section

Purpose: Build trust.

Suggested heading

Proof Over Promises

Content types to show

- Before/after website transformations
- Video examples
- Content previews
- Client wins
- Metrics if available
- Testimonials

Layout

- 2–3 featured result cards
- Short testimonial quotes
- Visual thumbnails linking to case studies or portfolio

Note for developer

This section must be easy to update later as more proof is added.

Section 6: Why Us / Authority Section

Purpose: Differentiate the brand from generic marketers.

Suggested heading

More Than Marketing Services

Messaging direction

This section should communicate that the founder understands local businesses from an operator mindset, not just a creative-service mindset.

Suggested themes:

- Revenue-focused approach
- Local market understanding
- Strategy before random execution
- Premium quality with business intent
- Understanding how trust, visibility, and conversion work together

Example paragraph direction

We do not believe in disconnected marketing deliverables. Every part of the system should work together — from the website and message to content, reviews, and traffic — so the business grows with structure, not guesswork.

Section 7: Process Section

Purpose: Give clarity and make the business feel organized.

Suggested heading

How We Work

Suggested 4-step process

1. Audit
    - Understand current brand, website, positioning, and gaps
2. Strategy
    - Define priorities, growth opportunities, and best next actions
3. Build
    - Website, content, review systems, campaigns, assets
4. Scale
    - Improve, optimize, and expand what works

Layout idea

Simple numbered process cards or a horizontal process timeline

---

Section 8: Featured Portfolio / Work Preview

Purpose: Show execution quality without overwhelming the homepage.

Suggested heading

Selected Work

Content to show

- Website projects
- Video work
- Brand/creative executions
- Industry-specific examples

CTA

- View Full Portfolio

Section 9: Final CTA Section

Purpose: Push action.

Suggested heading

Ready to Build a Stronger Growth System for Your Business?

Supporting line

If you want more leads, stronger authority, and a better-performing online presence, let’s talk.

CTA buttons

- Book a Strategy Call
- Contact Us

---

7. About Page Mockup

Goal

Build trust and show the philosophy behind the brand.

Sections

1. Intro hero

Headline example:
A Revenue-Focused Growth Partner for Local Businesses

2. Founder story / perspective

Focus less on biography and more on business philosophy.

Topics to cover:

- Why this business exists
- Why local businesses need better growth systems
- Why generic marketing does not work
- Why the brand focuses on businesses that care about real growth

3. What makes the approach different

- Not random marketing
- Strategy-first
- Local business understanding
- Focus on trust + conversion + growth

4. Industries we care about

- Service businesses
- Real estate
- Food businesses

5. CTA section

- Book a Strategy Call

---

8. Services / Growth Systems Page Mockup

Goal

Explain the offer clearly without sounding like a commodity service list.

Structure

Hero

Growth Systems Built to Help Local Businesses Win More Customers

Intro

This page should explain that the company offers integrated growth systems rather than disconnected services.

Main service/system blocks

1. Strategy & High-Converting Websites

Focus:

- Positioning
- Messaging
- Conversion structure
- Local trust
- Lead capture

2. Video Content & Authority Building

Focus:

- Brand trust
- Credibility
- Local visibility
- Content that supports sales, not just aesthetics

3. Review & Reputation Growth

Focus:

- Review collection systems
- Trust building
- Improved social proof
- Better local buyer confidence

4. Paid Advertising

Focus:

- Google / Meta campaigns
- Traffic to strong funnels
- Not ad spend without strategy

5. Optional strategic consulting / growth support

Focus:

- Audits
- Funnel analysis
- Positioning suggestions
- Business growth recommendations

CTA after each or near end

- Let’s Build Your Growth System

---

9. Industries / Who We Help Page Mockup

Goal

Create deeper relevance for each target niche.

Hero

Built for Businesses That Need Revenue, Not Random Marketing

Section A: Service Businesses

This should be the strongest section.

Topics to mention:

- More local leads
- Better trust online
- Website that converts
- Reviews that support conversion
- Videos that make the business look credible and established

Section B: Real Estate Agents

Topics:

- Authority building
- Listing presentation
- Personal brand growth
- Content and visuals that increase trust and visibility

Section C: Restaurants / Food Brands

Topics:

- Strong visual identity
- Attention-grabbing content
- Better customer attraction
- Local awareness and repeat business support

CTA

- Book a Strategy Call

---

10. Case Studies Page Mockup

Goal

Show business thinking and results.

Structure

Each case study should include:

1. Client / industry
2. Problem
3. Strategy
4. Execution
5. Outcome / result
6. Visuals

Design note

Case studies should feel clean, premium, and easy to scan.
Each one should look like a high-value business breakdown, not a simple gallery post.

---

11. Portfolio Page Mockup

Goal

Show quality of execution.

Layout

Filterable portfolio by:

- Websites
- Video content
- Service businesses
- Real estate
- Restaurants

Important note

Portfolio should not just be random thumbnails.
Each item should have:

- Thumbnail
- Short context
- Industry tag
- Type of work

Optional:

- Click through to detail page or lightbox modal

---

12. Contact / Strategy Call Page Mockup

Goal

Generate qualified inquiries.

Hero

Let’s Talk About Growth

Supporting text

This page should invite serious businesses that want better systems, stronger positioning, and more revenue.

Contact form fields

Recommended:

- Name
- Business name
- Email
- Phone
- Industry
- Current website / social link
- What do you need help with?
- What is your biggest growth challenge right now?

CTA button text

- Book My Strategy Call
- Start the Conversation

Extra note

Page should also include reassurance such as:

- We will review your situation before the call
- This is for businesses serious about growth

---

13. Future Landing Pages to Build

These pages will help with relevance and conversion later.

Suggested landing pages

- Marketing for Electricians in Hamilton
- Marketing for Contractors in the GTA
- Marketing for Painters in Hamilton
- Real Estate Video Services in Hamilton
- Restaurant Marketing in Hamilton
- Website Design for Service Businesses in the GTA

These pages should be highly relevant, local, and conversion-focused.

---

14. Navigation / Header Requirements

Header style

- Sticky header
- Clean and premium
- Strong CTA button in top right

Logo placement

Top left

Navigation links

- Home
- About
- Services
- Industries
- Work / Portfolio
- Case Studies
- Contact

Header CTA

- Book a Call

---

15. Footer Requirements

Footer should include

- Logo / brand name
- Short positioning sentence
- Quick links
- Industries
- Contact information
- Social links
- CTA or mini contact prompt

Example footer positioning sentence

Helping local businesses across Hamilton and the GTA grow through better websites, authority content, reviews, and paid acquisition systems.

---

16. Messaging Rules for Copywriting

Must feel like

- Expert
- Strategic

- Local
- Confident
- Business-minded

Must not feel like

- Cheap
- Desperate
- Generic
- Overhyped
- Overly technical with no benefit

Copy style guidance

- Speak about outcomes
- Use service features only to support outcomes
- Emphasize business growth, trust, leads, conversion, visibility, and revenue
- Avoid overusing generic agency phrases like “we elevate brands” unless backed by practical meaning

---

17. UX / Design Requirements

Key requirements

- Mobile-first design
- Premium spacing and typography
- Fast loading
- Strong CTA placement throughout site
- Simple user journey
- Clear section hierarchy
- Visual proof integrated naturally
- Built for trust and conversion

Conversion considerations

- Multiple CTA sections
- Clear contact flow
- Minimal friction

- Case studies and proof close to decision points
- Industry relevance visible early

---

18. Technical / Build Recommendations

Preferred tech stack

If relevant:

- Next.js
- TypeScript
- Tailwind CSS

Important build notes

- Easy to update content later
- Portfolio and case studies should be easy to manage
- SEO-friendly structure
- Fast performance
- Strong metadata setup
- Local SEO readiness

SEO notes

Developer should structure pages with SEO in mind, especially for:

- Local keywords
- Industry pages
- Service + location landing pages
- Good heading structure
- Strong technical performance

---

19. What This Website Should Ultimately Achieve

This website should make the brand look like:

- A serious local growth expert
- A premium operator, not a commodity freelancer
- Someone who understands how local businesses actually win customers

It should attract:

- Better-quality clients
- Businesses looking for revenue growth
- People willing to pay for expertise

And it should repel:

- Cheap clients
- People wanting random one-off low-value tasks
- Businesses only comparing the lowest price

---

20. Final Direction for Developer

The final website should feel like a **premium, conversion-focused authority website** for a local business growth brand.

It should be designed to:

- Build trust quickly
- Communicate expertise clearly
- Show industry relevance
- Present services as part of a larger growth system
- Drive qualified prospects toward booking a call

This should not feel like a simple marketing agency brochure.
It should feel like the online presence of someone who helps local businesses grow in a real, strategic, revenue-focused way.

---

21. Optional Add-On: Tone / Messaging Summary for Quick Reference

One-line brand summary

We help local businesses generate more leads, customers, and revenue through high-converting websites, authority content, review systems, and paid advertising.

Main niche priority

1. Service businesses
2. Real estate agents
3. Restaurants

Main call to action

Book a Strategy Call

Main brand promise

Not random marketing services — a complete growth system built for local businesses.
